In re Application of	:	Michall Petropoulos et al.
Serial No.	:	09/819,180
Filed	:	3/27/2001
Art Unit	:	2161
Examiner	:	Nguyen, Cindy
Title	:	RECONFIGURABLE QUERY GENERATION SYSTEM FOR WEB BROWSERS
Atty. Docket No.	:	ENOS0001

AFFIDAVIT UNDER 37 CFR 1.131

I, Kostas Stathatos, declare as follows:

1. From 3/8/2000 to 6/15/2003 I was employed as Director of Engineering of Enosys Markets, Inc. of 6265 Greenwich Dr. #125, San Diego, CA 92122 USA.
2. Prior to February 22, 2001, I witnessed Enosys Markets, Inc. employee Michalis Petropoulos conducting an operational demonstration of a software program named

"XSDesign" for me. The demonstration was conducted at the business office of Enosys Markets, Inc., 6265 Greenwich Dr. #125, San Diego, CA 92122 USA.

3. These statements are made with knowledge that willful false statements are punishable by fine and/or imprisonment under 18 USC 1001, and that any such willful false statement may jeopardize the validity of this application or any patent resulting therefrom.

Atty. Docket No.	:	ENOS0001

AFFIDAVIT UNDER 37 CFR 1.131

Vasilis Vassalos, Michail Petropoulos, and Ioannis Papakonstantinou, the inventors in the above-captioned patent application, declare as follows:

1. In the United States prior to February 22, 2001, we jointly conceived the invention of claims 21, 30 of the above-identified patent application.
2. In the United States prior to February 22, 2001, the invention of claims 21, 30 was actually reduced to practice. More particularly, the following events occurred prior to February 22, 2001. Michalis Petropoulos programmed a DELL Dimension 2100

computer with software embodying claims 21, 30. The software program was written in Java, XML Stylesheet Language (XSL) and XML Catalog Query Language (XCQL) languages using the Borland JBuilder integrated development environment. Personnel at Enosys Markets Inc., where we were each employed at the time, gave this program the internal name of XSDesign. Michalis Petropoulos, Spyridon Maglatis, Clifton McLellan and Harry Winand verified that the software worked for its intended purposes by creating a large number of forms that queried catalog data of real electric motors and sensors. The software was tested thoroughly by simulating a large number of users interacting with the created forms.

3. In the United States prior to February 22, 2001, as a representative of Enosys Markets, Inc., Ioannis Papakonstantinou utilized a notebook computer to demonstrate operability and features of the XSDesign program for Maria Parad, a representative of the ETF Group of Massagno, Switzerland. The demonstration was conducted at 6265 Greenwich Dr. #125, San Diego, CA 92122 USA, which was the business office of Enosys Markets, Inc. at that time.
4. In the United States prior to February 22, 2001, as a representative of Enosys Markets, Inc., Ioannis Papakonstantinou and Michalis Petropoulos utilized a notebook computer to demonstrate operability and features of the XSDesign program for Dale Skeen, founder and then CTO (currently CEO) of Vitria Technology, Inc. (NASDAQ:VITR) of Sunnyvale, California. The demonstration was conducted at 6265 Greenwich Dr. #125, San Diego, CA 92122 USA, which was the business office of Enosys Markets, Inc. at that time.
5. In the United States prior to February 22, 2001, Michalis Petropoulos utilized a notebook computer to demonstrate operability and features of the XSDesign program for Kostas Stathatos, who at the time was the director of Engineering of Enosys Markets, Inc. The demonstration was conducted at 6265 Greenwich Dr. #125, San Diego, CA 92122 USA, which was the business office of Enosys Markets,

Inc. at that time.

6. These statements are made with knowledge that willful false statements are punishable by fine and/or imprisonment under 18 USC 1001, and that any such willful false statement may jeopardize the validity of this application or any patent resulting therefrom.
